

Real Estate in India

Real estate sector is one of the most globally recognized sectors.. The conversation in this sector is highly dependent on the regular visibility of the project in the decision makers eyes.

Display and Sell

Send images, PDF to improve your sales. Send property locations such as google map and ask them to visit. We allow you to link the IMP Web URLs.

Quick Feedback

Use a two way communication tool which helps to receive a response from your targeted audiences like review or feedback.

Grow Your Opt-in List

Promote your product via missed call, short code and long code which helps to grow your opt-in list.

Campaign Schedulers

We allow you to quickly schedule multiple campaigns that can be run on the same group of prospective customers or on a different set of customer contacts simultaneously.

Agent Friendly

We have designed an easy system so that non technical people (Field Staff) can easily manage and execute the campaign.

Interaction with your clients

Real Estate business requires more interaction with your customer like sending time to time SMS reminders of left out orders, products available/not available notice/flash SMS along with a payment gateway link for making real time payment.

Build your opt-in database
